

SAFETY DATA SHEET

ANGUS CHEMICAL COMPANY

Product name : Magnesium Chloride, Anhydrous

Issue Date: 11/02/2017

Print Date: 11/03/2017

ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

Product name Magnesium Chloride, Anhydrous

Manufacturer or supplier's details

Company name of supplier ANGUS CHEMICAL COMPANY

Address 1500 E. LAKE COOK ROAD
Buffalo Grove IL 60089-6553

Customer Information Number +1-847-808-3711

E-mail address NAR_CC@ANGUS.COM

Emergency telephone number 800-424-9300

Recommended use of the chemical and restrictions on use

Recommended use For laboratory use.
Life sciences research chemical.
The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification

Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements

This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).

Other hazards

None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

Components

Chemical Name	CAS-No.	Concentration (% w/w)
Magnesium dichloride	7786-30-3	98.0 - 100.0 %
Water	7732-18-5	0.0 - 2.0 %

4. FIRST AID MEASURES

If inhaled	Move person to fresh air; if effects occur, consult a physician.
In case of skin contact	Wash off with plenty of water.
In case of eye contact	Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.
If swallowed	No emergency medical treatment necessary.
Most important symptoms and effects, both acute and delayed	Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.
Protection of first-aiders	If potential for exposure exists refer to Section 8 for specific personal protective equipment.
Notes to physician	Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. No specific antidote.

5. FIREFIGHTING MEASURES

Suitable extinguishing media	This material does not burn. If exposed to fire from another source, use suitable extinguishing agent for that fire.
Specific hazards during firefighting	If product becomes contaminated with water, monitor product for heat generation and/or decomposition. Product reacts with water. Reaction may produce heat and/or gases.
Hazardous combustion products	Fire conditions may cause this product to decompose. Refer to section 10 - Thermal Decomposition.
Further information	Keep people away. Isolate fire and deny unnecessary entry.

Special protective equipment for firefighters	<p>Water is not recommended, but may be applied in large quantities as a fine spray when other extinguishing agents are not available.</p> <p>This material does not burn. Fight fire for other material that is burning.</p> <p>Extinguish small fires with dry chemical or smother with dry sand.</p> <p>Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves).</p> <p>If protective equipment is not available or not used, fight fire from a protected location or safe distance.</p>
---	---

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	<p>Isolate area.</p> <p>Keep unnecessary and unprotected personnel from entering the area.</p> <p>Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. Refer to section 7, Handling, for additional precautionary measures.</p> <p>See Section 10 for more specific information.</p>
Environmental precautions	<p>Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.</p>
Methods and materials for containment and cleaning up	<p>Contain spilled material if possible.</p> <p>Collect in suitable and properly labeled containers.</p> <p>Use care to minimize generation of airborne dust.</p> <p>See Section 13, Disposal Considerations, for additional information.</p>

7. HANDLING AND STORAGE

Advice on safe handling	<p>Keep container closed.</p> <p>Good housekeeping and controlling of dusts are necessary for safe handling of product.</p> <p>Avoid generating and breathing dust.</p> <p>Avoid contact with eyes.</p> <p>Wash thoroughly after handling.</p> <p>See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.</p>
Conditions for safe storage	<p>Protect from atmospheric moisture.</p> <p>Store in a dry place.</p>

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering measures

Local exhaust ventilation may be necessary for some operations.
 Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

Personal protective equipment

Respiratory protection

Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process.
 In dusty or misty atmospheres, use an approved particulate respirator.
 The following should be effective types of air-purifying respirators:
 Particulate filter.

Hand protection

Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene. Polyvinyl chloride ("PVC" or "vinyl"). Nitrile/butadiene rubber ("nitrile" or "NBR"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

Eye protection

Use safety glasses (with side shields).

Skin and body protection

Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, boots, apron, or full body suit will depend on the task.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Solid.
Color	White
Odor	Odorless
Odor Threshold	Odorless
pH	No test data available

Freezing point	No test data available
Melting point/range	714 °C (1,317 °F) Method: Supplier
Boiling point/boiling range	1,412 °C (2,574 °F) Method: Supplier
Flash point	Test Type: closed cup Not applicable
Evaporation rate	Not applicable to solids
Flammability (solid, gas)	No data available.
Upper explosion limit	No test data available
Lower explosion limit	No test data available
Vapor Pressure	No test data available
Relative Vapor Density (air = 1)	No test data available
Relative density	No data available.
Bulk density	2.3 g/cm ³ (20 °C) Method: Supplier
Water solubility	543.5 G/L (20 °C) Method: Supplier
Partition coefficient: n-octanol/water	Partitioning from water to n-octanol is not applicable. No bioconcentration is expected because of the relatively high water solubility.
Auto-ignition temperature	No test data available
Decomposition temperature	No test data available
Viscosity Viscosity, kinematic	No test data available
Explosive properties	No data available.
Oxidizing properties	No data available.
Molecular weight	95.21 g/mol Method: Supplier
Hygroscopic	yes

NOTE: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

Reactivity	No dangerous reaction known under conditions of normal use.
Chemical stability	Hygroscopic Stable under recommended storage conditions. See Storage, Section 7.
Conditions to avoid	Exposure to elevated temperatures can cause product to decompose. Avoid temperatures above 300°C (572°F) Avoid moisture.
Incompatible materials	Water contamination may cause heat generation and decomposition. Avoid contact with: Strong oxidizers.
Hazardous decomposition products	Toxic gases are released during decomposition. Decomposition products can include and are not limited to: Chlorine. Hydrogen chloride.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute toxicity

Product:

Acute oral toxicity	Remarks: Very low toxicity if swallowed. Harmful effects not anticipated from swallowing small amounts. Excessive exposure may cause: Diarrhea. LD50 (Rat, female): > 5,000 mg/kg
Acute inhalation toxicity	Remarks: Dust may cause irritation to upper respiratory tract (nose and throat). Vapors are unlikely due to physical properties. Remarks: The LC50 has not been determined.
Acute dermal toxicity	Remarks: Prolonged skin contact is unlikely to result in absorption of harmful amounts. LD50 (Rabbit, male and female): > 2,000 mg/kg Symptoms: No deaths occurred at this concentration. Assessment: The substance or mixture has no acute dermal toxicity

Skin corrosion/irritation

Product:

Remarks: May cause more severe response if skin is damp.
Essentially nonirritating to skin.

Serious eye damage/eye irritation

Product:

Remarks: May cause slight eye irritation.
Corneal injury is unlikely.

Respiratory or skin sensitization

Product:

Remarks: Did not cause allergic skin reactions when tested in guinea pigs.

Remarks: For respiratory sensitization:
No relevant data found.

Carcinogenicity

Product:

Did not cause cancer in laboratory animals.

IARC No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Teratogenicity

Product

Did not cause birth defects or other effects in the fetus even at doses which caused toxic effects in the mother.

Mutagenicity

Product

In vitro genetic toxicity studies were negative.

Reproductive toxicity

Product:

No relevant data found.

STOT - single exposure

Product:

Assessment: Evaluation of available data suggests that this material is not an STOT-SE toxicant.

Repeated dose toxicity

Product:

Remarks: In animals, effects have been reported on the following organs:

Kidney.

Dose levels producing these effects were many times higher than any dose levels expected from exposure due to use.

Aspiration toxicity

Product:

Aspiration Hazard

Based on physical properties, not likely to be an aspiration hazard.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:

Toxicity to fish

Remarks: Material is practically non-toxic to aquatic organisms on an acute basis (LC50/EC50/EL50/LL50 >100 mg/L in the most sensitive species tested).

LC50 (Gambusia affinis (Mosquito fish)): 16,500 mg/l
 Exposure time: 96.0 h
 Method: Method Not Specified.

Toxicity to daphnia and other aquatic invertebrates

EC50 (Daphnia magna (Water flea)): 140.00 mg/l
 Exposure time: 48.0 h
 Method: Method Not Specified.

Toxicity to algae

LC50 (alga Scenedesmus sp.): 2,200 mg/l
 End point: Growth rate inhibition
 Exposure time: 72 h
 Method: Method Not Specified.

Persistence and degradability

Product:

Biodegradability

Remarks: Biodegradation is not applicable.

Bioaccumulative potential

Product:

Partition coefficient: n-octanol/water

Remarks: Partitioning from water to n-octanol is not applicable.
 No bioconcentration is expected because of the relatively high water solubility.

Mobility in soil**Product:**Distribution among
environmental compartmentsRemarks: Potential for mobility in soil is very high (Koc
between 0 and 50).**Other adverse effects****Product:**

Ozone-Depletion Potential

Regulation: 40 CFR Protection of Environment; Part 82
Protection of Stratospheric Ozone - CAA Section 602 Class I
Substances

Remarks: This product neither contains, nor was
manufactured with a Class I or Class II ODS as defined by the
U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A +
B).

13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND,
OR INTO ANY BODY OF WATER.

All disposal practices must be in compliance with all Federal,
State/Provincial and local laws and regulations.
Regulations may vary in different locations.
Waste characterizations and compliance with applicable laws
are the responsibility solely of the waste generator.
AS YOUR SUPPLIER, WE HAVE NO CONTROL OVER THE
MANAGEMENT PRACTICES OR MANUFACTURING
PROCESSES OF PARTIES HANDLING OR USING THIS
MATERIAL.

THE INFORMATION PRESENTED HERE PERTAINS ONLY
TO THE PRODUCT AS SHIPPED IN ITS INTENDED
CONDITION AS DESCRIBED IN MSDS SECTION:
Composition Information.

FOR UNUSED & UNCONTAMINATED PRODUCT, the
preferred options include sending to a licensed, permitted:
Incinerator or other thermal destruction device.
Landfill.

14. TRANSPORT INFORMATION

International Regulation**IATA-DGR**

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

National Regulations**49 CFR (DOT) – NON BULK**

Not regulated as a dangerous good

49 CFR (DOT) - BULK

Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

EPCRA - Emergency Planning and Community Right-to-Know Act**CERCLA Reportable Quantity**

This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards

This product is not a hazardous chemical under 29CFR 1910.1200, and therefore is not covered by Title III of SARA.

SARA 302

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMII Intermediate or Final VOC's (40 CFR 60.489).

Clean Water Act

This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.

This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3.

This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307

US State Regulations

Massachusetts Right To Know

No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know

The following chemicals are listed because of the additional requirements of Pennsylvania law:

Cas No.	Component
7786-30-3	Magnesium dichloride

New Jersey Right To Know

The following chemicals are listed because of the additional requirements of New Jersey law:

Cas No.	Component
7786-30-3	Magnesium dichloride

California Prop. 65

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

The components of this product are reported in the following inventories:

United States TSCA Inventory

All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30

16. OTHER INFORMATION

Further information

NFPA:

HMIS III:

HEALTH	0
FLAMMABILITY	0
PHYSICAL HAZARD	0

0 = not significant, 1 =Slight,
 2 = Moderate, 3 = High
 4 = Extreme, * = Chronic

Revision Date 11/02/2017
 Version 0.0
